Understanding cables

Every cable message consists of three parts:

- The top box shows each cables unique reference number, when and by whom it originally was sent, and what its initial classification was.
- The middle box contains the header information that is associated with the cable. It includes information about the receiver(s) as well as a general subject.
- The bottom box presents the body of the cable. The opening can contain a more specific subject, references to other cables ([browse by origin](#) to find them) or additional comment. This is followed by the main contents of the cable: a summary, a collection of specific topics and a comment section.

To understand the justification used for the classification of each cable, please use this [WikiSource](#) article as reference.

PRESIDENTIAL ELECTIONS

REF: STATE 96360

Classified By: Political Counselor Andrew Schofer; reasons
1.4 (b) and (d).

(C) Poloff delivered reftel demarche June 15 to MFA acting
Central America desk officer Dimitri Vogelaar. According to
Vogelaar, the GONL is highly likely to support the OAS
monitoring mission financially. Discussions are also
underway within the GONL, and with the European Commission,
on possible observers. Vogelaar says the GONL might well
send one or two of its own Foreign Ministry employees to join
a European Commission team. The personnel would most likely
be drawn from the region, he said, rather than sent from The
Hague.
